

GAIN PROFESSIONAL EXPERIENCE

Make your first contacts in professional life and gather valuable experience – this is what TGW Logistic Group offers to interested individuals and ambitious pupils and students.

TGW relies on junior experts and offers students the opportunity to immerse themselves into the world of intra-logistics before they graduate from university. At TGW, you will not only gather first valuable job experience, but also lay the foundation for a career within the TGW Group.

During your internship, you will take on exciting and varied tasks in a specialized field for a specified period while deliberately using and expanding your skills.

As part of your first **professional experiences at TGW**, you also have the option of writing your **thesis** with us. In doing so, we place the focus on technical subject areas. The duration of the internship can be determined on a case-by-case basis.

Are you passionate about simulation models, OOP and also co-developing large automated systems? Then this opportunity is for you!

WHAT CONVINCES US

- University education with a focus on IT, Business Information Systems, Software Engineering or similar.
- Logical, analytical thinking, reliability and independent way of working.

WHAT WE OFFER YOU
